MOTTLED LEAF CYPRIPIEDIUM

(warm type)

Special Group Offering No. 441

—PLEASE ORDER BY NUMBER—

Due to the many requests for mottled leaf (warm) cypridium, we make this special group offer. Most of these flower at various seasons throughout the year, making them very desirable as a 'cut flower' plant or to those who want long lasting flowers at different seasons of the year. The mottled foliage is most attractive as well.

SPECIALLY PRICED AS FOLLOWS

The Albino group has flowers of green and white on tall stems, bearing one or two flowers per stem. *Cypripedium Maudiae* 'Magnificum' FCC is a typical example.

The colored group is primarily in the red or red-purple colors and most with some white. Typical examples are *Callosum*, *Maudiae* 'Coloratum', *Harrisianum*, *Burgandy*, and *St. Alban*.
